

UDI Capital Region U40 Committee Presents

U40 Leadership Series: Mike Achtem

The U40 Leadership Series provides young professionals the rare opportunity to learn from Victoria’s foremost business leaders. Come hear from those who have experienced the highs and lows of a career in real estate, in a casual, relaxed atmosphere.

We are pleased to have Mike Achtem P.Eng., join us for our June 13th event. Mike is a Principal and founding member of both Islander and Gwaii Engineering in Victoria, BC. He is a Registered Professional Civil Engineer, a certified Contract Administrator with the Master Municipal Construction Association and a Project Management Professional with over 25 years of experience focused on land development and municipal infrastructure throughout British Columbia. He has been involved in a broad array of interesting projects including being the lead design engineer and program manager for the Bear Mountain community development.
