Webinar Sponsorship

A Webinar Sponsorship is an opportunity to maintain brand awareness during this time when the business community is largely working from home. Your brand will be connected with the continuing development industry updates and educational opportunities we are providing members, and your sponsorship helps us continue to support our development community through this crisis and for years to come.

Your Webinar Sponsorship includes:

- Company logo appears on the UDI website event page.
- Company logo on all event invitation emails that go to more than 1000 industry-related professionals
- Company mention through event invitation on all social media advertising, including Facebook, Twitter, and LinkedIn
- Company mention and link included in the next UDI monthly newsletter
- Company logo on welcome and closing slides of the webinar
- The opportunity to speak briefly (3 minute max) at the beginning of the webinar about your company and your connection with the webinar topic
